Combining the five different styles of Japanese Shiatsu, Hawaiian Lomi Lomi, Thai, Swedish and Balinese massage, specially blended essential oils of sandalwood, patchouli and ylang ylang are applied by our therapists’ gentle healing hands to calm the nervous system, warm and relax muscle tissue, and promote the growth of healthy new skin cells, ultimately resulting in total relaxation and beautiful, supple skin.

MASSAGE THERAPIES

Massage is a therapy that, when applied with skill and care, can precipitate many beneficial changes within the body, mind and spirit. It is a powerful treatment because it works on both physical and psychological levels to invigorate and relax, while various techniques and strokes can also ease pain or tension from stiff aching muscles, boost circulation and alleviate mental stress.

Traditional Thai Massage

Also known as “Nuad Borarn”, this healing therapy has been handed down through the generations in Thailand for over 2500 years. Combining acupressure and stretching techniques using the therapist’s fingers, thumbs, elbows, arms and feet, the body’s internal energy is encouraged to flow more freely to alleviate problematic conditions such as lower back pain, arthritis, headaches and stress related conditions.

“Luk Prakob” Hot Compress Therapy

Tensions drift away during this traditional heated Thai massage, which has been used for many centuries in Thailand for the relief of pain and inflammation. Following a sport massage, a selection of therapeutic herbs including plai, ginger, turmeric and lemongrass are wrapped in a muslin compress, steamed and then applied to the body in gentle circular and rolling movements. As the pores open and allow the herbs to take effect, ailments such as stiff, sore or pulled muscles and ligaments, back pain, migraines, stress and anxiety are almost instantly relieved.

Elemis Aroma Stone Therapy

Therapeutic heat is slowly released deep into the muscles as warm stones bathed in aromatherapy oils glide smoothly over your entire body, enhancing the benefits of your massage. Small stones placed on key energy points balance chakras and harmonise your vital energy flow.

Swedish Massage

Swedish Massage is the foundation of nearly all western massage techniques. Enjoy a firm and invigorating treatment that uses sweet almond oil combined with the five classic strokes – gliding, kneading, friction, vibration and percussion – to improve blood circulation, reduce muscle tension, relieve aches and pains, and provide a wonderfully energising boost.

Aromatic Massage

Based on the principles of Aromatherapy and Swedish massage, stress and anxiety are relieved as essential oils extracted from plants, flowers and fruits are generously glided over your body using a variety of techniques. Each ingredient works to ground, balance and calm the body and mind, while their powerful effects are also known deterrents of muscular pains and digestive disorders.

Sport Massage

Combining three of the five classic Swedish massage strokes, this therapy works deeply into the muscles, stretching muscle fibres and releasing tension in the fascia that may otherwise cause restricted movement and pain. By generating increased blood flow and thus improving circulation, you will discover a wealth of flexibility and relaxation benefits.

Balinese Massage

In this authentic massage style of ageless tradition, your therapist applies Indonesian floral oil together with palm pressure and stretching techniques to relieve tension, improve blood flow and in turn create waves of relaxation.

Indian Head Massage

Based on the principles of Ayurveda, this soothing and energising head massage combines pressure point techniques and coconut oil to relieve tension in the head and neck. A gentle yet powerful remedy for insomnia, chronic headaches, migraines and sinusitis.

Oriental Foot Massage

This dynamic treatment works by applying thumb, finger and palm pressure to reflex zones of the feet which correspond to organs and systems in the upper body. Experience general relief from pain, illness and stress, while this therapy is particularly beneficial in treating tension headaches, poor circulation and a sluggish digestive system.

BODY TREATMENTS

Deep seated impurities caused by the harmful effects of today's environment often prevent necessary nutrients from reaching the skin. Choose from any of our purifying body treatments below to replenish vital nourishment, and experience a welcome boost to your overall wellness.

BODY SCRUBS

Cell renewal occurs naturally, yet slows down as we age leading to dull, lifeless and dry skin. Exfoliation accelerates the process by stimulating the circulation of blood through the lymphatic system to bring oxygen and nutrients to the surface of the skin, at the same time assisting the body to flush away toxins. When performed on a regular basis, exfoliation is also highly effective in the treatment of cellulite.

Elemis Exotic Lime and Ginger Salt Glow

Invigorating

An exotic exfoliation ritual to energise and revitalise, this luxurious treatment inspires the senses with citrus fragrances and oils, and leaves skin feeling deeply cleansed, replenished and softened to perfection.

Detoxifying Green Tea scrub

Detoxifying

The ideal treatment to purify, nourish and rejuvenate. The therapeutic properties of green tea have long been revered for their ability to naturally detoxify, leaving you with skin that is beautifully healthy.

White Coconut Mint Scrub

Softening

Walnut shell removes dead cells and strengthens new skin to leave it feeling completely clear and flawlessly smooth, while coconut is rich in vitamins and antioxidants to purify, nourish and heal.

BODY WRAPS

Our skin is the largest organ of detoxification. As we are exposed to toxins on a daily basis in our lives - through the foods we eat, the air we breathe, free radicals, chemicals and so on - it is vital to rid the body of such harmful elements. Designed to help eliminate toxins from the body through the pores of the skin, as well as to stimulate circulation and soothe the muscles, body wraps can also help to firm and tone the skin, reduce cellulite, smooth body contours, and create sumptuous softness and suppleness.

Elemis Body Sculpting Cellulite and Colon Therapy

Redefine and smooth your silhouette

Target stubborn cellulite and sagging skin for visible, rapid results with a clinically proven Body Sculpting System that includes a lipo-refining serum application, a detoxifying fennel and birch body mask and specialised massage techniques to deeply cleanse the body of waste, stimulate circulation, reduce fluid retention, and also smooth and firm the skin.

Green Tea Splash

Detoxifying

Anti-inflammatory properties and enriching minerals gently hydrate and detoxify your skin. A calming cocoon wrap encourages deeper penetration of these remedial benefits, and a heavenly scalp massage adds a touch of indulgence.

Aloe Poultice

Skin soothing

Aloe vera, otherwise known as the 'healing plant', has long been recognised for its curative abilities, especially in the treatment of burns and wounds. Enjoy a soothing application of natural aloe vera gel, followed by a cooling compress of mint and black tea leaves, to reduce redness and irritation.
